

IBM UK Limited – Education Services  
Represented by  
**ATS Automated Training Systems Limited**

IBM Education Classroom & On-site Training  
Now available through  
**ATS – Certified IBM Education Agent**

Whatever your needs ATS can offer professional and comprehensive advice on content, availability and suitability for your organisation's individual training requirements.

ATS can tailor your individual needs and advise on the best combinations to fulfill your full training objectives. Whether you wish to combine Classroom, On-Site and ATS **“Portable Classroom”** self study multimedia training modules. ATS can provide a complete training path to suit you.

This service is offered by ATS at no additional charge and IBM IT Education Services courses booked via ATS retain the same terms and conditions of bookings as courses booked directly through IBM and are invoiced directly by IBM and incur no extra cost.

Our aim is to offer a **“One-Stop-Shop”** and provide advice on all aspects of your training requirements, saving you the time and effort involved to arrange course requirements via several different sources.

Details of all IBM iSeries (AS/400) Classroom courses can be found in our catalogue in these yellow pages. In addition we are also able to offer advice and book IBM courses for alternative systems. Should you have any further requirements please do not hesitate to contact us.

# iSeries

## iSeries Classroom

Course Title, Code and Description	Days	Fee	Dec	Jan	Feb	Mar	Apr	May	Jun
<b>Query/400 Workshop (AS01GB)</b> Learn the technique of producing quality reports quickly and efficiently using the Query/400 tool to interrogate the iSeries server database.	2	£700				4bk		20bk	
<b>iSeries Operations Navigator (AS03GB)</b> Use Operations Navigator at R510 to config, use and manage the iSeries/AS400.	2	£700			12	11	29		
<b>iSeries Logical Partitioning (LPAR) (AS04GB)</b> Learn to exploit the potential of the IBM iSeries using Logical Partitioning, using system service tools to create and maintain partitions and run production workloads efficiently.	3	£1050			9	8	26		1
<b>New What's New in RPG IV Version 5 (AS05GB)</b> ***UPDATED FOR V5R2*** Skills update course for experienced RPG IV programmers wishing to exploit the latest language features in V5R1 and V5R2.NOTE: Attendees on this course will be provided with the Standard WSc V5.1 CD-set for use in their work environment.	1	£350	Please call 08700 541144 for more details.						
<b>iSeries RPG IV Programming - Fundamentals (AS06GB)</b> Developers who are familiar with programming in any High Level Language (HLL), but who are new to iSeries RPG IV will find this course the ideal introduction.NOTE: Attendees on this course will be provided with the Standard WSc V5.1 CD-set for use in their work environment.	4	£1400			9bk		13		
<b>iSeries RPG IV Programming - Intermediate (AS07GB)</b> Occasional or recently-trained RPG IV programmers can develop their skills to the next level of expertise, using the latest language features.NOTE: Attendees on this course will be provided with the Standard WSc V5.1 CD-set for use in their work environment.	4	£1400			23bk			4	
<b>iSeries RPG IV Programming - Advanced (AS10GB)</b> A comprehensive exposure to some of the advanced features and functions of the language for experienced RPG IV programmers. Power-programming for the discerning! NOTE: Attendees on this course will be provided with the Standard WSc V5.1 CD-set for use in their work environment.	4	£1400				15bk			7
<b>CODE Editor and Designer for iSeries (AS12GB)</b> Learn how to use workstation (client) development tools for creating and maintaining traditional iSeries host applications. You will take advantage of the PC-based programmers-workbench to edit source code, design screen and report layouts, and debug iSeries applications.NOTE: Attendees on this course will be provided with the Standard WSc V5.1 CD-set for use in their work environment.	2	£700					22bk		28bk
<b>WebSphere Application Server for iSeries: Installation,Configuration &amp; Admin (AS14GB)</b> This course teaches how to install, configure and maintain IBM WebSphere Application Server v5.0. It also teaches how to deploy enterprise Java applications in a single machine.	3	£1050	Please call 08700 541144 for more details.						
<b>TCP/IP Basic Implementation (AS16GB)</b> This course will cover Transmission Control Protocol/Internet Protocol (TCP/IP) implementation on OS/400 using a mixture of lectures and hands-on labs. The course material addresses accessing the Internet as well as private intranets. A general knowledge of TCP/IP architecture is NOT required for successful completion of the course.	2	£700				22		24bk	
<b>iSeries HTTP Server Implementation (AS17GB)</b> This course will cover the Implementation of the HTTP Servers on the I-Series. We will look at both the Original CERN server and the Apache Server.We also cover the SSL implementation for both servers using Digital Certificates for Secure Web Serving.	2	£700				24		26bk	

For advice, availability and booking please call **08700 541144**, or email us at [info@atstraining.co.uk](mailto:info@atstraining.co.uk)

Course Title, Code and Description	Days	Fee	Dec	Jan	Feb	Mar	Apr	May	Jun
<b>Enabling OS/400 TCP/IP Security Verson 5 (AS18GB)</b> Learn about the Security features of OS/400 TCP/IP. This does not include Firewall technology.	3 	£1050 				17			
<b>iSeries System Operator (AS24BGB)</b> This course enables a new system operator to develop basic-to-intermediate skills needed for day to day operations of the iSeries system. This course will cover both the Character Driven Interface (Green Screens) and iSeries Navigator (Graphical User Interface) where applicable.	4 	£1400 		13		2	5		15
<b>What's New in V5R2 (AS25GB)</b> This course provides an overview of the new facilities in V5R2 of OS/400 as of the January 2003 announcements.	1 	£350 				24bk		27	
<b>iSeries Advanced System Operator for V5R1 (AS27GB)</b> This Course is designed to enhance the skills of an iSeries system operator and develop additional skills in the areas of work management, CL Programming and menu creation.	3 	£1050 			2bk	1bk		17bk	
<b>iSeries BRMS Implementation (AS28GB)</b> Backup and recovery – knowing how to do it is not optional! Learn once and never forget how to use BRMS to do regular and ad-hoc backups, recovery, and offsite tape backups.	4 	£1400 		26bk				10bk	21bk
<b>Windows Integration for iSeries (AS30GB)</b> Gain the skills needed to install, configure, manage and support Microsoft Windows Server on the iSeries Integrated xSeries Server and Direct Attached xSeries Server via Integrated xSeries Adapter. Learn the concepts, terminology and hardware that is related to the iSeries Integrated Windows environment. Through lecture topics and hands-on exercises, explore installation requirements and procedures, TCP/IP communication configuration including Gigabit Virtual Local Area Network (VLAN), storage space and combined user id administration, device sharing, backup and restore procedures, problem determination techniques and look at high availability options.	3 	£1050 			18bk			4bk	
<b>Management Central for iSeries (AS38GB)</b> This course teaches you how to control and operate multiple iSeries systems connected in a TCP/IP network using Client Access Express.	2 	£700 				15			
<b>iSeries Sales Certification Preparation Workshop (AS39GB)</b> Complete foundation for sales professionals covering knowledge of iSeries technology, business positioning, and solution selling in complex markets for ERP, e-business, CRM, SCM, and Business Intelligence. This course is now run at R520 of the software and includes the cost of the latest available certification test.	3 	£1350 			2				1bk
<b>iSeries Technical Certification Preparation Workshop (AS41GB)</b> A focussed course that moves experienced iSeries technical professionals to the standard required to successfully complete the latest Solutions Design and Solutions Implementation certification tests. The exams will test you on the complete range of I-Series topics, from basic operations through to the setup of BRMS and Windows on an X-series integrated server to understanding the hardware required to upgrade to the latest hardware models. This course is the final revision, before taking the certification tests, and is NOT a chance for non-experienced people to pass the exam. This course includes the cost of the certification test at a test centre of your choice.	4 	£1800 				8bk	19		14bk
<b>Web Enabling 5250 Application Using the IBM WebFacing Tool in WDS for iSeries (AS85BGB)</b> This course introduces you to the IBM WebFacing Tool and shows you how to customize the WebFacing Tool environment to meet your requirements for an e-business application. NOTE: Attendees on this course will be provided with the Standard WDS V5.1 CD-set for use in their work environment.	2 	£700 				3bk		17	

Practical work included

Education Card may be used to pay for this course

Course Title, Code and Description	Days	Fee	Dec	Jan	Feb	Mar	Apr	May	Jun
<b>New iSeries Application Using WebSphere Development Studio Client (AS86GB)</b> Learn how to use the WebSphere Development Studio Client (WDS) for iSeries workstation (client) development tools for creating and maintaining traditional iSeries host applications. You will take advantage of the PC-based programmers-workbench to edit source code, design screen and report layouts, and debug iSeries applications. This course marks the first step, ("Better Tools") in the iSeries Developer Roadmap, embracing modern tools to do the same development work previously accomplished via PDM, SEU, SDA, and STRDBG. See <a href="http://www.ibm.com/servers/eserver/iseries/roadmap">http://www.ibm.com/servers/eserver/iseries/roadmap</a> for further information. NOTE: Attendees on this course will be provided with the Standard WDS V5.1 CD-set for use in their work environment.	2	£700				1bk		19	
									
<b>New Getting Started with WebSphere on iSeries (AS89GB)</b> This course will introduce the student to the set of IBM-provided middleware and application development tools that are available to create and execute e-business applications on the iSeries platform. Creation of new, as well as modernization of existing application assets for enhanced, Internet-based solutions are explored.	3	£1050				8bk		24bk	
									
<b>Moving to ILE RPG IV (OE85GB)</b> ***COMPLETELY REVISED FOR V5R2*** Skills update course for experienced RPG/400 programmers wishing to exploit RPG IV and the Integrated Language Environment. Six months RPG/400 experience expected. NOTE: Attendees on this course will be provided with the Standard WDS V5.1 CD-set for use in their work environment.	3	£1050			18bk		19bk		30bk
									
<b>iSeries for New Users (OE98GB)</b> Practical classroom course introduces students to the basic concepts and skills needed to become a productive user on iSeries servers.	1	£350				1	2		14
									
<b>New iSeries CL Programming (OL20GB)</b> Hands-on course for iSeries students who intend to write Control Language programs to simplify server management and make effective use of system resources.	4	£1400					12bk		7bk
									
<b>iSeries Work Management and Basic Tuning (OL23GB)</b> This Classroom course explains how to balance the workload of the I-Series system to ensure optimum performance. Specifically this course explains how to manage workloads measure system performance and tune the operating system to meet processing requirements. This course is run using Version R510 of the software	2	£700			5bk			24	
									
<b>Accessing the iSeries Database Using SQL (OL37GB)</b> SQL power for the iSeries – a practical introduction to the use of this powerful query and manipulation language for accessing and maintaining the DB2 UDB for iSeries database.	2	£700				29			14bk
									
<b>Developing iSeries Applications Using SQL (OL38GB)</b> Cross-training for experienced RPG programmers – learn to use embedded SQL as an alternative to traditional file processing.	2	£700				31			16bk
									
<b>iSeries System Facilities (OL49BGB)</b> Application programmers, system programmers and system analysts are introduced to the many facilities and features of the iSeries such as Programming Development Manager, Source Entry Utility, CODE Editor, Screen Design Aid, Data File Utility, Query/ 400, Operations Navigator and interactive SQL.	5	£1500			23	29bk	26bk		
									
<b>iSeries Security Implementation (OL50GB)</b> Learn to implement security measures on the iSeries platform – perform an audit and use it to update a security plan. Practical course does not cover client access, communications or network security.	2	£700		19					28
									
<b>iSeries Availability and Recovery (OL51GB)</b> For business continuity planners – complete tour of iSeries availability and recovery options and how employ them for your own backup and recovery plan.	3	£1050		21					30
									

For advice, availability and booking please call **08700 541144**, or email us at [info@atstraining.co.uk](mailto:info@atstraining.co.uk)

Course Title, Code and Description	Days	Fee	Dec	Jan	Feb	Mar	Apr	May	Jun
<b>DB2/400 Relational Database Coding and Implementation (OL62GB)</b> Practical introduction to database setup – learn to implement the DB2 UDB for iSeries relational database and find out about advanced features such as Triggers and Constraints.	2 	£700 			16bk				
<b>iSeries Client Access Express for Windows (OL72GB)</b> This course provides students with skills needed to install, impliment and support Client Access Express for Windows.Students will learn through hands on use of the product in the windows environment. The Courseware has been updated to Software Release R510	3 	£1050 	Please call 08700 541144 for more details.						
<b>iSeries Performance Analysis and Capacity Planning (OL95GB)</b> This classroom course describes how to use the I-Series collection services to gather performance data. It also teaches how to use the IBM Performance Tools/400 of I-Series, displays, and graphics to analyse system performance, and the capacity planerr to estimate resource utilisation and manage system growth.THIS COURSE IS RUN AT THE V5R2 Software release.	3 	£1050 			16			10	21

Practical work included
